

# Industrial PH&ORP Transmitter

## Model: MDPH6081

### Applications

- Municipal and industrial water treatment in wastewater treatment plants
- Drinking and bathing water monitoring
- Pharmaceutical water
- Cooling tower control
- RO units(reverse osmosis)
- Process industry: Chemical/petro chemical,
- food and beverage, offshore oil rigs, pulp and paper, environmental
- technology, machine building and general plant construction

### Special features

- PH accuracy 0.05pH
- ORP accuracy 1mV
- Measuring range 0 ... 14pH
- Best accuracy, reproducibility and long-term stability
- Local zero and span adjustments
- Automatic temperature compensation

### Description PH

- |                                      |   |
|--------------------------------------|---|
| ■ Measuring range                    | 0~14.00pH, Resolution:0.01pH                                      |
| ■ Precision                          | 0.05pH, ±0.3°C  |
| ■ Stability                          | ≤0.05pH/24h   |
| ■ Automatic temperature compensation | 0~100°C(pH)   |
| ■ Manual temperature compensation    | 0~80°C(pH)  |
| ■ Output signal                      | 4-20mA isolated protection output, dual current output            |
| ■ Communication interface            | RS485(optional)   |
| ■ Control interface                  | ON/OFF relay output contact                                       |
| ■ Relay load                         | Maximum 240V 5A; Maximum I 15V 10A                                |
| ■ Relay delay                        | Adjustable  |
| ■ Current output load                | Max.750 Ω   |
| ■ Insulation resistance              | ≥20M  |
| ■ Power supply                       | AC220V ±22V, 50Hz ±1Hz  |
| ■ Overall dimension                  | 96(length)x96(width)x110(depth)mm ;dimension of the hole: 92x92mm |
| ■ Weight                             | 0.6kg   |
| ■ Working condition                  | ambient temperature:0~60°C, air relative humidity:≤90%            |

### Description ORP

- |                                      |                                    |
|--------------------------------------|------------------------------------|
| ■ Measuring range                    | -1999~ +1999mV, Resolution: 1 mV   |
| ■ Accuracy                           | 1mV, ±0.3°C, Stability: ≤3mV/24h   |
| ■ ORP standard solution              | 6.86,4.01                          |
| ■ Control range                      | -1999~ +1999mV                     |
| ■ Automatic temperature compensation | 0~100°C                            |
| ■ Manual temperature compensation    | 0~80°C                             |
| ■ Output signal                      | 4-20mA isolated protection output  |
| ■ Communication interface            | RS485(Optional)                    |
| ■ Output control mode                | ON/OFF relay output contacts       |
| ■ Relay load                         | Maximum 240V 5A; Maximum I 15V 10A |
| ■ Relay delay                        | Adjustable                         |

- Current output load Max. 750 Ω
- Signal impedance input  $\geq 1 \times 10^{12} \Omega$
- Insulation resistance  $\geq 20M$
- Working voltage 220V  $\pm 22V$ , 50Hz  $\pm 0.5Hz$
- Working condition ambient temperature: 0~60 °C  
Air relative :  $\leq 90\%$

## MDPH6081 Industrial PH&ORP Transmitter

ORDERING CODE	Example: MDPH6081	H	4	4	4	A	N	A	2	P	Note
<b>Measurement Type</b>											
P - PH transmitter											
O - ORP transmitter											
H - PH&ORP transmitter		H									
<b>Process Connection</b>											
4 - 3/4" NPT			4								
6 - 1" NPT											
8 - 1" BSP											
C - Customer											
<b>Operating Pressure Range</b>											
4 - 4 bar				4							
6 - 6 bar											
8 - 10 bar											
C - Customer											
<b>Operating temperature</b>											
4 - 60°C					4						
6 - 85°C											
8 - 95°C											
10 - 130°C											
C - Customer											
<b>Output</b>											
A - 2* 4 ... 20 mA output+1*multy function relay						A					
B - 2* 4 ... 20 mA output+2* relay											
C - Customer											
<b>Communication</b>											
N - None							N				
H - HART											
P - PROFIBUS PA											
F - FOUNDATION Fieldbus											
R - RS 485											
<b>Power Supply</b>											
A - 220VAC								A			
D - 24VDC											
C - Customer											
<b>Conduit Entry Size</b>											
2 - None									2		
4 - M20*1.5											
C - Customer											
<b>Installation</b>											
P - Panel mounting											P
W - Wall mounting											
P - Pipe mounting											
Other											

Address: 7191 Yonge street, Toronto, Canada
